SUNY Adirondack offers a two year Associates in Science Degree in Accounting (Accounting A.S.) for those seeking to pursue a career in accounting related fields. The U.S. Bureau of Labor Statistics predicts employment of accountants and auditors is projected to grow 10 percent from 2016 to 2026, **faster than the average for all occupations**. This degree parallels the first half of a bachelor's degree in accounting and is specifically designed for transfer to a 4-year institution. It does as well provide a significant foundation for students to pursue career opportunities should they not choose to transfer, and also an opportunity to use this degree to transfer into other 4-year business degree related programs.
