

Disney Internship

The Business Division is responsible for coordinating the Walt Disney College Internship Program on campus. Disney's unique "College Program" provides students with real work and life "expEARrience" through entry-level Cast Member positions such as: Attractions; Characters; Culinary Assistant; Hospitality; Lifeguarding; Merchandise; Recreation; Quick Service Food & Beverage; Transportation; and many more. You can drive one of the monorails or, if you are selected, become Tigger for a semester! The learning experience consists of the required Disney "Traditions" class and your choice of classes including tracks in Communication, Leadership, Hospitality, and Human Resources. This program is open and available to all students at SUNY Adirondack that are in good academic standing. Presentations and interviews for Spring and Spring Advantage semesters are held in the fall, and in the spring, for Fall and Fall Advantage Program. This is a six credit semester-long course and students must register for BUS 285. For further information log in to www.wdwcollegeprogram.com [1].
